

STUDENTS FOR DEMOCRACY

VOTING is the only way for us to make sure that Donald Trump does NOT win the 2024 election.

If Donald Trump is elected he will:

- Instruct the Department of Justice to go against his adversaries and critics and fire any government employee who does not follow his instructions
- Seek retribution against his enemies
- Pardon and protect those who tried to overturn the 2020 election
- Stop all federal and state cases against him
- Gut the U.S. civil service and deploy the national guard to U.S. cities as he sees fit
- Let red states monitor women's pregnancies and prosecute those who violate abortion bans
- At his discretion, withhold funds appropriated by Congress

Donald Trump wants to follow the path of dictators like Vladimir Putin, Bashaar Al-Assad, Kim Jong-Un and have absolute power.

The recent Supreme Court decision basically gives Trump immunity from criminal prosecution if he is the President
